

Make your own Turkey Hat

Supplies:

Construction paper

Scissors

Crayons or markers

Glue or tape

Instructions:

1. First, download, print and color your turkey.
2. Then, help your little one cut out the turkey wings, head, and feathers.
3. Measure your child's head with a string. Use the string to cut a piece of construction paper at the same length, plus a little extra.
4. Glue or tape the pieces of the turkey you cut out to the construction paper headband, and attach the two ends of the headband.
5. Now it's time to wear your turkey hat! Bonus fun: Flap your wings and have a turkey dance party together!
